

FURRER JACOT

SWISS MADE SINCE 1858

FURRER JACOT has won in the category Bridal Collection at the 25th Retail Jeweller UK Jewellery Awards in London 2017.

The "KISS" engagement ring from the Lucienne collection is a winner this year in the category "Bridal Collection". Why? What convinced the jury? It was the collection's design, quality, clean lines, and its strong symbolism! The jury looked into all these details and recognised the difference. Furrer Jacot's art director Lucas Ruppli is behind the elegant design.

The Lucienne collection not only stand for the bond of love, but also for their name-giver Lucienne Jacot. This solitaire and engagement ring collection is characterised by unique feminine shapes and designs, and selected diamonds. All rings are available in white gold, red gold, yellow gold, platinum and palladium.
